

# icipe in the media

18 – 24 July 2021

icipe is a member of the Association of International Research and Development Centers for Agriculture (AIRCA), a non-profit alliance whose focus is food security. This video shows how AIRCA's nine members can contribute to a range of Sustainable Development Goals (SDGs).

## Integrated Pest Management

icipe has developed a range of IPM packages from which farmers can choose depending on their agroecosystems. IPM not only benefits the users and the environment but also creates an opportunity for community involvement and economic development.

Improving lives through sustainable bioinnovations | ISSUE 9: January - July 2021

**INSIDE THIS ISSUE**

- The Third Women Scientists Fellowship begins
- Partnership with Dartmouth College on Technoeconomic Analyses (TEA)
- Webinar on 'Building back better from COVID-19 pandemic'
- External evaluation of Bioinnovate Africa
- 10th Bioinnovate Africa Programme Advisory Committee meeting
- Close out of cohort I Biobusiness Bootcamp
- External awards and recognition

**The third cohort of Bioinnovate Africa women scientists fellowship underway**

Bioinnovate Africa offers women scientists in eastern Africa an opportunity to contribute to the development of an African bioeconomy, by participating in a research fellowship for four-to-six months. Fellows work closely with Bioinnovate Africa project implementing partners in Burundi, Kenya, Uganda, Rwanda, Tanzania, and Ethiopia, and focus on innovative biologically based products like healthy foods, industrial enzymes, biopesticides, biofertilizers, insect-based proteins, phytochemicals. Some fellows also work on sustainable bioeconomy strategies for the region. A total of 10 mid-career women scientists representing the countries of Ethiopia, Kenya, Tanzania, and Uganda are currently participating in the third cohort of the fellowship. The fellows commenced their fellowship in January 2021 and are expected to complete by September 2021.
