

13-19 June 2022

## Sustainable Development Goals (SDGs)

Research conducted by *icipe* continues to gain prominence due to its significant contribution towards achieving the 2030 SDGs.

- <https://scienceafrica.co.ke/2022/06/15/icipe-making-strides-in-improving-human-crop-health/>

## Ecosystem services

*icipe* continues to be at the forefront in the promotion of biodiversity for climate change through research and innovation.

- <https://scienceafrica.co.ke/2022/06/13/icipe-promoting-biodiversity-for-climate-change-through-research-innovation/>

## Insects for Food and Feed and other uses (INSEFF)

*icipe*'s strive for solutions towards sustainable food production bears fruit as the adoption of the black soldier flies as a source of protein for animal feed as well as a high-performing fertiliser continues.

In our @USAID work @CETC\_IL we are conducting research with @icipe @IITA CGIAR @michiganstateu led by @agro\_dreamteam on nematodes and soil borne fungi. These are very neglected aspects in tropical agriculture and we need affordable and practical solutions for farmers

PlantVillage @plantvillage · 21h

Potato Field day organized by @agro\_dreamteam was held in Chepkorio Ward, Elgeyo Marakwet County 🇰🇪

Farmers learned on how to improve potato production through management of soil borne pathogens.
