## Validation of push-pull technology for the control of fall armyworm

To combat the spread of the fall armyworm throughout the country, *icipe* scientists are collaborating with other research organizations and local farmers to validate the use of push-pull technology, an eco-friendly pest management solution.

## Efforts to eradicate tsetse flies in the Lake Victoria region 'bearing fruit'

*icipe*'s significant role in the intervention and control of tsetse fly infestations is bearing fruit. The strategy to collaborate with farmers groups has paid off, and residents of the Lambwe valley and the Lake Victoria basin have reported a significant reduction in sleeping sickness in humans and nagana in domestic animals.
