## icipe is a semifinalist in the Future Global Food System Seeding Challenge

The semifinalists for the third annual Seeding The Future Global Food System Challenge have been announced, and *icipe* is competing for \$100,000 in growth grants for the innovative development of plant extract-based biopesticides and their on-farm applications for sustainable crops that benefit both humans and the environment.

## A new plan to guide Australian insect industry

AgriFutures Australia has issued a new five-year strategy to drive the growth of the emerging Australian insect market and it is expected to feed into the activities of the recently founded Emerging Insect Technology Hub (EIT-Hub), a collaboration between AgriFutures, the Australian Centre for International Agricultural Research (ACIAR), and *icipe*.
