

**27 February-13 March 2023**

Training farmer groups in bee keeping is bearing fruit.

Farmers in Kakamega who were trained in beekeeping by *icipe* are benefiting from their stingless bee honey production.

Integration and testing of eco-friendly fall armyworm solutions has begun.

CGIAR's Plant Health Initiative, which includes *icipe*, is testing integrated pest management (IPM) packages against the fall armyworm. The IPM packages include 18 treatment combinations, including FAW-resistant maize varieties, biopesticides, biological control agents, a push-pull system, and bean varieties.

Happy #InternationalWomensDay!

To celebrate, why not read this inspiring piece on creating gender equity in the workplace by Segenet Kelemu, CEO of @icipe? She describes how 3 things - welfare, respect and equal opportunity - are crucial to her approach.
