Bee Health

In Ethiopia, bee keepers with smartphones have access to apps for hive management. The translation of the Beekeeper's Companion App into local dialect, on the other hand, has gone a step further in reaching larger audience because it is now in a language farmers are fully conversant with.

SmartSoil Project

AgriDi has launched the SmartSoil Project, which aims to boost production by employing the newest technology and advancements in digital soil mapping. The SmartSoil Project is led by the Federal University of Agriculture in Abeokuta, Nigeria.
